

**Ming-Huei CHENG, MD, MBA, FACS**

Chief, Center of Tissue Engineering

Senior Professor, Department of Plastic and Reconstructive Surgery,

Linkou Chang Gung Memorial Hospital, Taiwan

Email: [minghuei@cgmh.org.tw](mailto:minghuei@cgmh.org.tw)

Having obtained his MD degree, Dr. Ming-Huei Cheng completed General Surgery and Plastic Surgery residency at Chang Gung Memorial Hospital. He did a combined micro fellowship and research fellowship at the University of Texas MD Anderson Cancer Center, Houston, Texas 1998 ~ 1999, and continued as a visiting scholar at Emory University, Atlanta, GA, Louisiana State University Medical Center, New Orleans, LA, and the University of California, Los Angeles, CA. He returned to Taiwan to practice in the Department of Plastic and Reconstructive Surgery at Chang Gung Memorial Hospital since 2000.

Dr. Cheng's major clinical practices are breast reconstruction, head-and-neck reconstruction, and lymphedema microsurgery. His research focuses are on vascularized lymph node flap transfer for lymphedema and tissue engineering of bone and fat. In 2002, he co-founded the Taiwan Breast Reconstruction Foundation, and to this day, he continues to campaign for breast reconstruction throughout Asia. In 2007, he became the first microsurgeon in Asia to receive the Godina Fellow Award from the American Society for Reconstruction Microsurgery's (ASRM) and visited 13 world-renown Institutes. Since 2009, he has been a Fellow of the American College of Surgeons. Earlier 2016, he was granted the William A. Zamboni Visiting Professorship award from ASRM. He was employed as an Adjunct Professor of the Section of Plastic Surgery, University of Michigan, Ann Arbor, Michigan since 2017.

Dr. Cheng is a council member of the Taiwan Society of Plastic Surgery, Taiwan Head and Neck Society, and Asian Society of Head and Neck Oncology. In 2009, he hosted the first annual Asian Symposium of Breast Plastic and Reconstructive Surgery (ASBPRS) and thereafter founded the Asian Society of Plastic and Reconstructive Surgery in Taiwan in 2015. In 2013, he hosted the International Symposium of Surgical Treatment of Lymphedema. In 2016, he successfully and continuously hosted the 5th World Symposium of Lymphedema Surgery (WLSLS).

Throughout Dr. Cheng's professional years, he has been invited to more than 180 lectures, either as panelist or moderator, and he was the visiting professor on 26 university/medical centers throughout the United States, Europe, and Asia. He has authored 210 peer-reviewed papers, 40 book chapters, and edited 1 textbook (Principles and Practice of Lymphedema Surgery, 2015). To date, he continues to advocate clinical practice and research of the lymphedema microsurgery, and share outstanding medical skills and knowledge to national and international societies.
