

# 8th World Symposium for Lymphedema Surgery

Venue: First Conference Hall (1F, Rehabilitation Building)

Friday, April 26, 2019			
Time	Topic	Speakers	Moderators
07:30	Opening Remark		
07:30~07:35	Honorary Chairman	Fu-Chan Wei, MD	
07:35~07:40	Honorary Chairman	David C.C. Chuang, MD	
07:40~07:45	President of WSRM	Isao Koshima, MD	
07:45~08:00	Co-Chairmen	David W. Chang, MD, Jaume Masia, MD, Ming-Huei Cheng, MD	
<b>08:00</b>	<b>Keynote Lecture I</b>		
	Controversies in Axillary Oncologic Surgery	Stephen F. Sener, MD	Ming-Huei Cheng, MD Ketan Patel, MD
<b>08:30</b>	<b>Panel 1: Updated Imaging for Diagnosis and Surgery</b>	<b>Speakers</b>	<b>Moderators</b>
08:30~08:40	Application of Indocyanine Green Lymphography	Yukio Seki, MD	David W. Chang, MD,
08:40~08:50	Lymphoscintigraphy for Lymphedema	Arin K. Greene, MD	Gemma Pons, MD
08:50~09:00	Lymphoscintigraphy SPECT Experience with Correlation of Surgical Findings	Chieh Lin, MD	
09:00~09:10	Personal Approach to Lymphedema Management, a Changing Paradigm	Peter Neligan, MD	
09:10~09:20	Volumetric Differences in the Superficial and Deep Compartments of Patients with Secondary Lymphedema	Sung-Yu Chu, MD	
09:20~09:30	Discussion		
<b>09:30</b>	<b>Panel 2: Surgical Technique and Outcomes of Variable Donor Lymph Node Flaps</b>	<b>Speakers</b>	<b>Moderators</b>
09:30~09:40	Mapping Anatomical Changes in Lymphedema with Indocyanine Lymphography and Its Impact on Management	Hiroo Suami , MD	Isao Koshima, MD,
09:40~09:50	Vascularized Submental Lymph Node Flap Transfer	Ming-Huei Cheng, MD	Dung Nguyen, MD
09:50~10:00	Vascularized Supraclavicular Lymph Node Flap Transfer	David W. Chang, MD	
10:00~10:10	Vascularized Omental Lymph Node Flap Transfer	Joseph Dayan, MD	
10:10~10:20	Vascularized Groin Lymph Node Flap Transfer	Ketan Patel, MD	
10:20~10:30	Lymphedema Surgery on Children	Corinne Becker	
10:30~10:40	Discussion		
<b>10:40~10:50</b>	<b>Group Photo</b>		
<b>10:50</b>	<b>Coffee Break</b>		
<b>11:10</b>	<b>Free Paper Presentations I</b>	<b>Presentors</b>	<b>Moderators</b>
11:10~11:15	An Experimental Animal Model for Head and Neck Lymphedema	Giulia Daneshgaran, MD	Dhruv Singhal, MD
11:15~11:20	Patterns, Staging and Clinical Application of Lymphoscintigraphy for Gynecologic Cancer-Related Lymphedema	Marco Pappalardo, MD	Hakan Brorson, MD
11:20~11:25	Nanofibrillar Collagen Scaffold Implantation Enhances Lymphatic Regeneration in Conjunction with Lymphaticovenous Anastomosis or Vascularized Lymph Node Transfer	Danielle Helena Rochlin, MD	
11:25~11:30	Immediate Effects of Arterial Ischemia and Venous Occlusion on the Function of Vascularized Groin Lymph Nodes in a Rodent Model	Ines Tinhofer, MD	
11:30~11:35	Pathological Transport Index on Lymphoscintigraphy Guides Microsurgical Planning	Corrado Cesare Campisi, MD	
11:35~11:40	Discussion		
11:40~11:45	Evaluation of Venous Complication in Vascularized Lymph Node Flaps for the Management of Lower limb Lymphedema and Assessment of Their Long-term Outcome	Satomi Koide, MD	John Chieh-Han Tzou, MD
11:45~11:50	Free Gastroepiploic Lymph Nodes and Omentum Flap for Treatment of Lower Limb Ulcers in Severe Lymphedema: Killing Two Birds With One Stone.	Giuseppe Di Taranto, MD	Gurusamy Manokaran, MD
11:50~11:55	Single Center Experience for Reconstructive Lymphedema Surgery	Chieh-Han John Tzou, MD	
11:55~12:00	A new way to debulk with Versajet in chronic lymphedema: a case report	Christina Png, MD	
12:00~12:05	Successful Treatment of Lymphedema in a Vasculopath and Neuropathic Patient	Suzanne M. Inchauste, MD	
12:05~12:10	Discussion		
<b>12:10~13:00</b>	<b>Lunch</b>		
<b>13:00</b>	<b>Live Surgery Demonstrations (To be Decided by Available Candidates)</b>	<b>Operators</b>	<b>Commentators</b>
	Vascularized Submental Lymph Node Transfer	Ming-Huei Cheng, MD	Joseph Dayan, MD
	Vascularized Supraclavicular Lymph Node Transfer	David W. Chang, MD	Peter Neligan, MD
	Barcelona Cocktail- total Reconstruction	Jaume Masia, MD
